ECOLOGY & CONSERVATION  
& ANTIOCH UNIVERSITY  
NEW ENGLAND**

***PRESENTS:***

**Model Community-based Human-elephant  
Conflict Mitigation**

*Please Join Speaker*

**Sulaiman bin Ismail**

Elephant conservationist from Malaysia who will discuss the work of his elephant conservation unit. He will show some basic analysis of the conflicts in their site, and talk about the techniques they use to keep elephants from eating crops. He will also discuss some of the scientific studies they do to learn more about the elephants, and talk about side projects like education.

**Friday, November 21, 2008**

**Community Room at 11:30 am - 12:30 pm**

***This is a brown bag series event and is open to the public...all are welcome!***
